PROFESSIONAL SUMMARY

Senior Full-Stack Web Developer with over 15 years of experience delivering web solutions. Expert in the Laravel ecosystem, specialized in building multi-tenant SaaS architectures, optimizing legacy codebases, and managing end-to-end DevOps pipelines on AWS. Proven track record of managing complex technical projects for enterprise clients, including **Ikea, Goodyear, Caterpillar,** and **Suzuki**, alongside core product development. Committed to code quality and AI-driven efficiency, with a comprehensive understanding of the full web development lifecycle—from concept to launch and sales.

PROFESSIONAL EXPERIENCE

Senior Laravel Developer | Monster

Brno, Czech Republic | 01/2021 – 09/2025

• **SaaS Architecture & Development:** Conceptualized, planned, and led the full-stack development of a *Career Website Builder*, a multi-tenant SaaS product allowing clients to generate personalized career sites.

- *Tech Stack:* Built using **Laravel**, **Nova**, and **Vue.js**, hosted on **AWS** with **Redis** caching and tenant-separated databases.
- *Business Impact:* Pitched the Proof of Concept to executive management, secured approval, and launched to paying customers within 12 months.

• **Product Development:** Enhanced the technical stack (Laravel, Tailwind, JavaScript, PHP, MySQL, Redis, AWS, TDD, etc.) to improve performance and scalability.

• **Web Development:** Developed full-stack web applications for high-profile clients, including *Ikea, Goodyear, Caterpillar,* and *Suzuki*.

• **Team Leadership:** Mentored junior developers, created comprehensive documentation, and recorded training video libraries to standardize onboarding.

• **DevOps & Optimization:** Maintained core infrastructure, updated solutions, and focused heavily on performance optimization for existing commercial products.

Full-Stack Developer | Upwork

Brno, Czech Republic | 09/2015 – 12/2020

• **Custom Web Solutions:** Delivered specialized Laravel and WordPress solutions, ranging from brochure sites to full-scale CMS web applications like:

- Inventory Management in Laravel for a truck parts supplier, eliminating manual data entry.
- Ski tournament system in Laravel for a Canadian ski club, allowing easy scoring and results.
- Kitchen parts supplier website in WordPress, allowing for easy product management.
- Snooker tournament management system in WordPress for a club in the UK.

• **Web Development:** Created Laravel and WordPress web applications for clients.

• **Security & Performance:** Specialized in hardening web security (HTTPS, CSRF, XSS, SQL injection, validation, etc.) and optimizing speed/SEO for high-traffic environments.

• **DevOps Management:** Planned, installed, and configured deployment systems using Linux, Apache, Nginx, and Git workflows.

Senior Web Developer | Newbird

Brno, Czech Republic | 11/2013 – 08/2015

• Developed full-stack web applications, ecommerce sites, and custom scripts for clients in the United States. Projects included: theme parks, nursing homes, advertising agencies, law firms, etc.

Exclusive Author & Plugin Developer | Envato (CodeCanyon)

Brno, Czech Republic | 03/2013 – 06/2014

• **Product Development:** Created the *Taxonomies Filter Widget*, a robust WordPress plugin for handling custom fields and taxonomy filtering.

• **Commercial Success:** Achieved 'Weekly Top Seller' status and generated over **2,000 verified sales**, handling all customer support and feature updates personally.

Network Engineer | AT&T

Brno, Czech Republic | 02/2012 – 12/2013

• Implemented, maintained, and troubleshooted company's network and devices, ensuring security, reliability, and performance; configured routers, switches, firewalls, protocols, and VPNs.
